

## ALORA AMBIANCE DIFFUSER

- To assemble diffuser, replace closed wood cap with open wood cap and insert all sticks inside bottle. Flip sticks initially to saturate, then as needed for desired intensity.

- Fragrance will mellow after opening and will naturally darken as evaporation occurs. Both heat and sunlight will increase darkening. The 16 oz. diffuser will last 4-6 months and the 8 oz. diffuser will last 2-3 months depending on dryness or humidity in air and how often sticks are flipped.

**Caution:** Always handle diffuser by the bottle. The fragrance is a combination of alcohol and essential oils and, if spilled, will damage finished surfaces. Do not place diffuser near open flame.

**uno:** muguet . sandalwood . musk . lemon .

**due:** jasmine . cucumber . basil . ylang ylang .

**tre:** orange . mandarin . vanilla . amber .
